Exciting News: Early Pay Module Coming Soon!

We are excited to introduce an innovative feature that promises to enhance your banking experience at Ozark Federal Credit Union: the Early Pay Module! Understanding that timely access to funds can make a significant difference in managing your finances, we've developed this feature to provide greater flexibility and convenience.

How It Works:

When you log into your online banking account, you might notice a pending ACH (Automated Clearing House) deposit—these could be direct deposits like paychecks, government payments, or other electronic transfers. With our Early Pay Module, you'll have the option to access these funds sooner than the scheduled date. A simple click will allow you to receive your pending deposit early, ensuring you have your money when you need it most.

Cost of Service:

To take advantage of this early access, a \$20 fee will be applied per transaction. This fee is designed to cover the processing involved in accelerating the deposit while still offering you the benefit of timely fund availability.

Benefits to You:

- **Immediate Access:** Whether it's for an unexpected expense, an urgent bill, or simply to have peace of mind, early access to your funds can be crucial.
- **Financial Flexibility:** Enjoy the freedom to manage your money on your schedule, rather than waiting for standard processing times.
- **Convenience:** The entire process is managed seamlessly through your online banking portal, making it quick and easy to access your funds.

We are committed to continuously improving our services to meet your needs, and the Early Pay Module is a testament to that dedication. Keep an eye out for its official launch date, and prepare to take control of your finances like never before!

For more information or to address any questions, feel free to contact us at 573-686-7221 or visit your local branch.

Membership eligibility is required. Some restrictions apply. Speak with a Member Service Representative for additional information.
