

Butler County Emergency Management Agency

Robbie Myers
Director

As Butler County Emergency Management Director, I conduct a variety of presentations for community groups. One of the more impactful programs I deliver is the Emergency Financial Aid Kit. The kit was developed by Federal Emergency Management Agency to strengthen financial preparedness for disasters and emergencies. The book *Zoe Finds a Job* serves as a fantastic correlative resource for young citizens on this subject.

The financial information communicated by *Zoe* is beneficial for the entire family whether or not there is a natural disaster pending. This program has allowed us to forge a partnership with our local credit union to make our community safer. I highly recommend this book as a stand-alone program or as an addition to FEMA's Emergency Financial First Aid Kit.

Sincerely,

A handwritten signature in black ink that reads "Robbie Myers". The signature is fluid and cursive, with a long horizontal stroke at the end.

Robbie Myers, MBA

Butler County Emergency Management Director
